SUMMARY

I am a dedicated computer science professional with experience in software testing and full-stack development. With a strong foundation in the MERN stack, I have delivered high-quality web applications and contributed to successful projects. I thrive in challenging environments and am eager to help companies achieve their operational goals while ensuring user satisfaction.

EXPERIENCE

Full Stack Developer - Intern

[Cloud Counselage Pvt. Ltd](#) 🗓 02/2025 - 09/2025 📍 Mumbai, India

A company focused on cloud-based legal solutions

- Developed a responsive full-stack web application using MongoDB, Express.js, React.js, and Node.js
- Implemented RESTful APIs for backend functionality and integrated them with the React front-end
- Used MongoDB Atlas for cloud database management and data persistence
- Implemented user authentication and authorization using Clerk for secure access
- Styled the application using Tailwind CSS for a clean and modern interface
